LOTION  
PUMP

# LOTION PUMP

Vega Plast, 2020 yılında kişisel bakım, kozmetik, sağlık ve güzellik sektörlerinde faaliyet gösteren firmalarımıza yüksek kalite standartlarında Sıvı Sabun - Losyon Pompalar, Tetik Püskürtücü ve Spray Pompalar üretmek amacı ile kuruldu. 2019 yılında başlayan Ar-Ge çalışmalarının sonucunda yüksek teknoloji otomasyon montaj ve enjeksiyon makine parkuru yatırımlarımızı tamamladık. Genç ve dinamik kurucu kadrosunun yanında deneyimli profesyonellerden oluşan ekibi ile hizmet veren firmamız sektör ihtiyaçlarına dayalı yatırımlarına devam etmektedir.

Ar-Ge hattımız, enjeksiyon hattımız, lieri teknoloji otomasyon montaj ve kalite kontrol hattımız ile siz değerli müşterilerimize yüksek kalitede ürünler sunmayı taahhüt ediyoruz. Kullanmakta olduğumuz tam otomatik otomasyon montaj hattımız ürünün ilk aşamasından son aşamasına kadar olan sızdırmazlık, kilitleme, basınç, eksik ve nihai kontrol gibi tüm kalite kontrollerini el değmeden gerçekleştirmektedir.

Vega Plastik olarak müşterilerimizin gereksinimlerine göre farklı kalıp ve ürün tasarımları yapmakla birlikte, farklı renk ve ölçülerde imalat yapabilmekteyiz. Bunun yanında Tetik Püskürtücü üretim hattı alanında Ar-Ge çalışmalarımız ve yatırımlarımız devam etmektedir. Kısa vadede bu ürünümüzü de siz değerli müşterilerimize sunmayı hedefliyoruz. Bütün bunlarla birlikte ülkemizin ithalata bağımlı olan bir ürün grubunda, genç ve dinamik bir şirket olarak yatırım yapmanın ve yüksek standartlarda üretim kalitesini yakalayabilmiş olmanın gururunu yaşamaktayız.

Siz değerli müşterilerine üst düzeyde müşteri hizmeti, rekabetçi fiyatlandırma, hızlı teslimat ve yüksek kalitede ürünler sunmayı ve bu alanda sürdürülebilir olmayı garanti ederiz. Alanında güçlü, istikrarlı ve tercih edilen bir firma olarak markalaşmak amacıyla müşteri memnuniyetini baz alan kaliteli hizmet yaklaşımını benimseriz. Taahhütlerimizi zamanında ve en doğru şekilde yerine getirerek, etik ilkelere ön planda tutmak daimi olarak prensibimiz olmuştur

Nihai hedefimiz memnuniyetinizdir.

Vega Plast was established in 2020 with the aim of producing high quality plastic lotion and trigger pumps for our partners operating in the personal care, cosmetics, and health and beauty sectors. As a result of the R&D studies that started in 2019, we completed our investments in high-tech automation assembly and injection machine park. Our company, which serves with its young and dynamic founding staff as well as its team of experienced professionals, continues its investments based on the market needs.

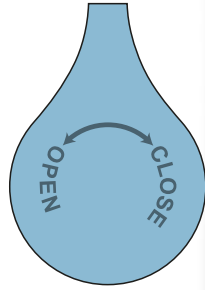

Our company is a manufacturer that produces Lotion and Liquid Soap Dispenser Pumps with automation assembly machine without human touch. We are committed to providing high quality products to our valued customers with our R&D line, injection line, high-tech automation assembly and quality control line. Our fully automatic automation assembly line, that we use, carries out all quality controls from the first stage of the product to the last stage without human touch, such as sealing, locking, pressure, missing and final control. Since our automation assembly system does not complete the assembly of faulty products and scraps them, only our products that pass all these stages successfully can be delivered to our valued customers.

As Vega Plastik, we can make different molds and product designs according to the needs of our customers, as well as manufacture in different colors and sizes. At the same time, our R&D studies and investments in the Trigger Sprayer production line continue. We aim to present this product to our valued customers in the short term.

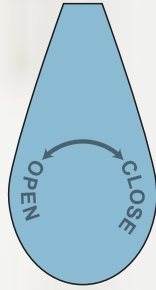

We guarantee to provide you, our valued customers, with top level customer service, competitive pricing, fast delivery and high quality products and to be sustainable in this field. In order to become a brand as a strong, stable and preferred company in its field, we adopt a quality service approach based on customer satisfaction. It has always been our principle to prioritize ethical principles by fulfilling our commitments on time and in the most accurate way.

Our ultimate goal is your satisfaction.
